

Continence and Bowel Management in Neurorehabilitation

Dr. Mario Patricolo (Chair) mario.patricolo@gmail.com

Dr. Yousif Al Nuaimi (Co-Chair) yalneaimi@hotmail.com

Members of the Group:

Dr. S.A. Wasti (Ethics)

Dr. Nirmal Surya (Developing Countries)

Mr. A. Dickson (Paediatric Urology and Surgery)

Mr. Humberto Cerrel Bazo and Prof. S. Trebinjac (Spinal Cord Injury)

Dr. E. Skikic Mujic (Urodynamics in Adult Neuropathic Bladder)

Miss. K. Fielding (Pelvic Floor Rehabilitation)

Dr. Samer Makhoul (Psychiatry and Cognitive Behavioural Therapy)

Our goals:

To work at improving acute and long-term management of continence to urine and faeces in Neurogenic Bladder in all ages and to create integrated care pathways, also considering sexual issues in neuropathic patients. We intend working at creating sensible models of care which will be culturally adjusted and will reflect realities of modern healthcare systems as well as healthcare in Developing Countries. We will proudly cooperate as a multidisciplinary team. Public awareness is also one of our SIG scopes.
